PROFILE

Interdisciplinary designer blending technology, design, and art to create clean, creative, and user-focused digital experiences. Specialized in enterprise web/mobile products, B2B, and e-commerce apps. With 8+ years of experience—including work with NEOM and PwC

EXPERIENCE

Senior UI/UX or Product Designer (Remote)

Apr 2024 - Oct 2025

I worked on large scale digital platforms where clarity, structure, and cross team alignment were essential. I redesigned user flows for complex tools and improved the overall experience by simplifying navigation and reducing friction. I created interactive prototypes to explain ideas and guide development. I collaborated with business teams, QA, and engineers to keep design consistent across all platforms. My work included layout systems, interaction logic, and component updates that support scalable product growth. I ensured design quality through reviews, documentation, and clear communication with stakeholders. Make it short

Senior UI and UX Designer (Dubai)

Nov 2023 - March 2024

Onsite

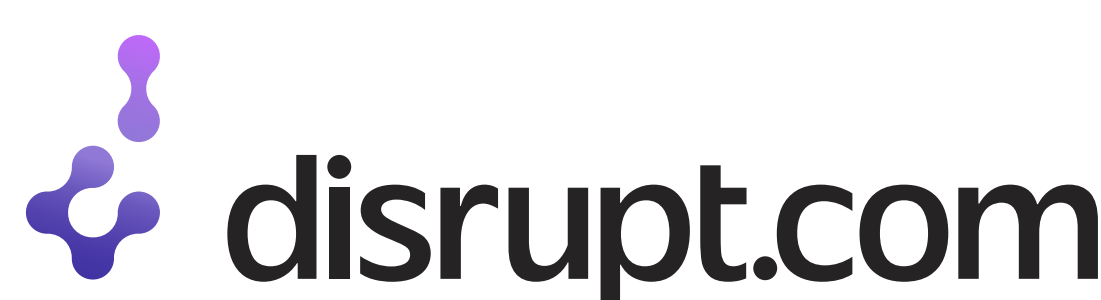

As a contractual employee at PwC, I report directly to a manager, leading the end-to-end design process for websites and mobile applications. My responsibilities encompass conceptualization, design, and delivery, ensuring the final products meet client expectations and align with strategic goals.

Senior UI and UX Designer (Dubai)

2021- 2023

Working in the Crypto & Fintech Industry as a Senior UI & UX Specialist. My core responsibilities includes designing pixel-perfect responsive websites and mobile apps across multiple platform. As well I expertise in working for a project from start to handling the entire process & execution of the product cycle – My profile involves working along with CEO and the Engineers.

Senior UI and UX Designer

2018 - 2021

In Gaditek, I am actively engaged in diverse projects and products, with a primary focus on the design of Cybersecurity VPN mobile applications and websites. From project initiation to completion, my role involves overseeing the entire design process to deliver impactful results for our clients, ensuring robust solutions in the realm of cybersecurity and VPN technology.

UI and UX Designer

2016 - 2018

Design high level and/or detailed wireframes and mock-ups to effectively communicate interaction and design ideas.
